

NASH FLOW REGATTA

2019

CANADA

Dearest,

I hope you're planning on coming to the N.A.S.H. Flow Regatta at Blue Mountain Resort near Collingwood, Ontario. If it's anything like last year, it's going to be epic. I hear Salvador is coming with his Discharge.ch app for Surface Structure Image Velocimetry (whatever that means), Sentlinger's bringing his QiQuac (!!), and Frank's got his usual bag of tricks (surface radar, remote controlled A.D.C.P., Sommer bit). Also heard something about a Rising Bubble Method from our hiwi friend. Don't know how that's expected to work. Looking forward to other rising bubble methods with you afterwards,

Ta,

S.
